Foundation CAM SciNet

I would like to announce that as a catalyst of our CAM conference we have founded a CAM scientific network (CAM SciNet) on 7th February 2024. I am convinced you like our logo (generated by Dr. Marta Teixeira Pinto). The CAM SciNet marks a significant milestone in our collective journey towards a new level for acceptance, standardization, and applicability of the CAM model as an alternative in vivo system. The participants of the CAM conference share the passion for promoting our unique experimental model for users from a wide range of specialized areas. See below the group of experts who are founder members:
